

FILO™ Pleat

Cartridge Filters

The FILO™ Pleat cartridge filters are dedicated to water prefiltration and final filtration of a wide range of water treatment applications.

Absolute rating from 1 to 25 µm.

Features & Benefits

- Cost effective high surface area
- Absolute rating from 1 to 25µ
- Retention efficiency : 99,98% of staled micron
- Long life
- Several lengths available: 9" ¾ ; 20" ; 30" ; 40"
- Endcaps available: DOE, Code 7, Code 3 and Code 8
- FDA approved
- All polypropylene construction
- Compliance with 21CFR Part 177 and EC 1935/2004 requirements

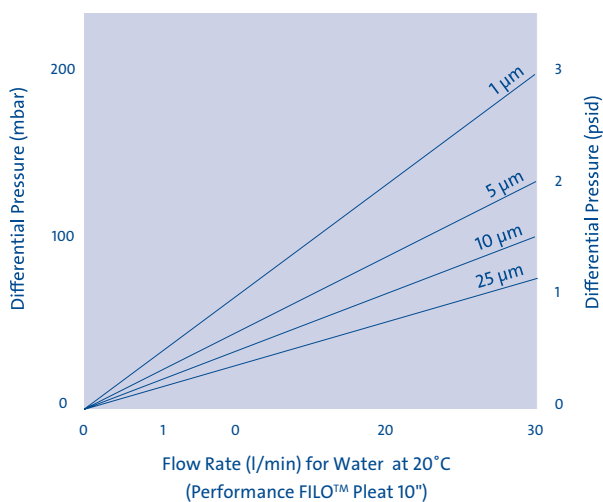

Applications

- Water pre-filtration
- Water final filtration

Related Services

Local after-sales service and support teams offer preventative and corrective maintenance programs to ensure the long-term, efficient operation of installed plant.

Performance

Specifications

Material Specifications	
Filtration Media	Polypropylene
End Caps	Polypropylene / Nylon
Recommended Operating Conditions	
Max. Temperature	65°C (150°F)
Max. Differential Pressure	4 bar
Max. Recommended Differential Pressure	2.5 bar
Dimensions	
Outside Diameter	2.7" (68 mm)
